JEWS IN CONTROL OF "LITTLE FEPC"

Contrast Between Millers' Trial And Bachrach Case Hit

WASHINGTON, D.C. — The justice department's recently announced intention to proceed with the long delayed prosecution of the Communist Jewess, Marian Bachrach, should be of special interest to every patriot if for no other reason than that it provides a basis for comparison with another trial which recently attracted national attention — the strange case of Lucille Miller.

BACHRACH

The affair of Marian Bachrach, whose record as a Communist traitor is one of the most flagrant in the country, really goes back to 1952 when she was slated to go on trial with 20 other "second string" Communist leaders for violation of the Smith Act. After pleading ill health, however, she was excused from the case by a solicitous federal court—along with another

Congressmen Criticise Israel For Ingratitude

WASHINGTON, D. C.—A report on Israel recently submitted to the House Foreign Affairs Committee by Congressmen James P. Richards of South Carolina and John M. Vorys of Ohio continues to draw Jewish fire. After a survey mission to the Middle East which included Israel, the Congressmen warned the Foreign Affairs Committee against piping more U.S. funds into the Jewish state. American aid, according to their findings, is not appreciated but accepted as a matter of right. "In Israel", they reported, "the official attitude appeared to be that American aid was so clearly in our interest that acceptance of it involved no obligation to our country."

NEW YORK—Bias complaints against 35 resorts in New York State have been filed with the State Commission Against Discrimination by the American Jewish Congress. The complaints cite advertising of "churches nearby" or similar slogans as proof discrimination against people of the Jewish faith. The Congress has also called on the [illegible] to pass a bill granting Federal aid to medical schools, but urged that such a measure should include safeguards against discrimination because of race, religion or national origin.

The above news item, which appeared in the July 1st issue of the Brooklyn Jewish Examiner (largest of the Jewish weeklies) reveals that the American Jewish Congress has lodged complaints against 35 New York hotel and resort owners for using such phrases as "churches nearby" in their advertising.

Organized Jewry Prosecutes Hotels For Mentioning Churches In Ads

NEW YORK—The powerful, trouble-making American Jewish Congress has, according to the Brooklyn Jewish Examiner (July 1st) filed complaints against 35 New York hotel resorts for what it calls "discriminatory" advertising. The complaints, which were lodged with New York's five-man "State Commission Against Discrimination", allege that by using such phrases as "churches nearby", the resorts are discriminating "against people of the Jewish faith".

The current complaints are reminiscent of a similar situation which arose two years ago (see AN June 10, '53) when the American Jewish Congress hauled three up-state New York resort owners before the same Commission on identical charges. At that time the Commission, by a 3-to-2 vote, sustained the resort owners' right to use the phrases, "bus to church" and "churches nearby" in their advertising. In view of that decision it is not clear why the American Jew-

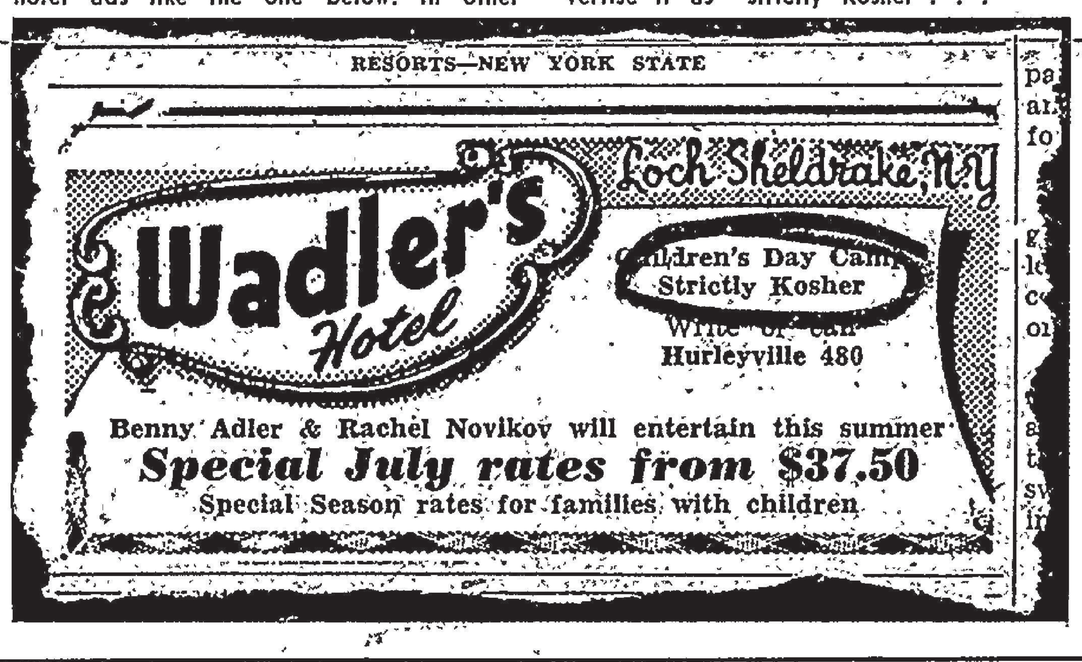
The very same issue of the Brooklyn Jewish Examiner which ran the news item above also ran more than twenty Jewish hotel ads like the one below. In other words, it's a crime in New York for a hotel to advertise itself as being "near churches", but perfectly alright to advertise it as "strictly Kosher". . .



Jacob Seidenberg Exposed As Actual Brains Of F.E.P.C.

Union Merger To Result In New Racial Agitation

ATLANTIC CITY, N.J.—The forthcoming merger between the CIO and A F of L will almost certainly result in a stepped up attempt by organized labor to eradicate racial segregation in every phase of American life. The CIO has persistently fought segregation for many years — even to the point of writing non-discrimination clauses into labor contracts and union by-laws. Financial aid to the NAACP has likewise figured in the CIO's "anti-discrimination" program, and CIO locals in some areas have for years sponsored inter-racial social activities (dances, parties, etc.). And "racial discrimination" by a union member is grounds for expulsion from many CIO affiliates. . .

THE ONLY "ISM" WE ADVOCATE IS AMERICANISM !

Editor's Report

It seems obvious now that the Eisenhower administration has adopted a policy of "massive appeasement" toward Soviet Russia. It should surprise no one, however, to see Eisenhower getting chummy with the Kremlin's butchers, because he has been turning in a similar performance on the domestic front ever since his election. A president who would sit as a guest of honor at an NAACP convention (as Eisenhower did), or who would deliver a nation-wide TV address from the platform of the disreputable Anti-Defamation League of B'nai B'rith (as he also did), would hardly hesitate to sit down with the Kremlin crew either.

FRANK L. BRITTON

As to his proposal to let Soviet "inspection" planes fly over American defense establishments: we place that in the same category with his "civil rights" program right here at home. After all, a man who would hold Washington D. C.'s interracial schools up as a "pilot model" for the states to follow, and who has fatuously cooperated with every sinister Jewish group in America to promote a "silent race revolution" in this country, is only running true to type when he proposes to invite Communist planes to fly over American soil to inspect our defenses. It's all on the same level of thinking. . .

It isn't that we question Mr. Eisenhower's integrity; on the contrary we believe he is both honest and sincere. So, for that matter, was Henry Wallace. The trouble is that he is sincere about the wrong things. He is sincere, for example, about strengthening the UN, and in his support of FEPC and integrated schools; he is sincerely opposed to the Bricker Amendment, to Senator McCarthy and to virtually all the conservative leaders of both parties. No question about it, sincerity is the one attribute which characterizes Mr. Eisenhower. As a matter of fact we have never known a man to be so sincerely wrong about so many things. . .

Union Merger

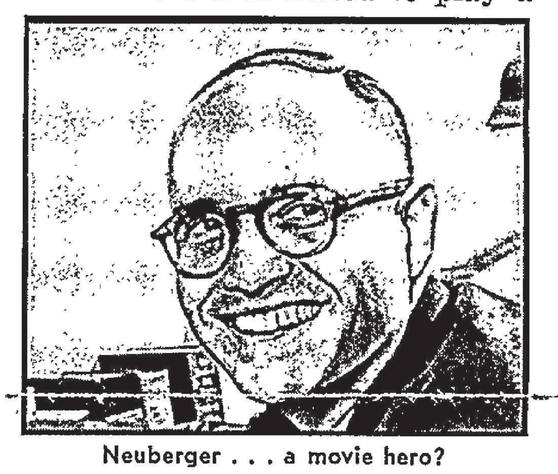
(Continued from Page One)

With the merger of the two unions these policies will unquestionably be expanded. Recently George Meany, president of the A F of L gave a clear indication of this in a speech delivered before the Jewish Labor Committee in Atlantic City in which he demanded (1) creation of a compulsory federal FEPC, (2) enforcement of non-discrimination clauses in government contracts, (3) withholding of federal aid from Southern schools which **"evade the Supreme Court ban against segregation"**. . .

Rank and file union members, most of whom are emphatically opposed to compulsory race mixing, will obviously have very little to say about the matter.

Hollywood

IF THERE IS ONE TALENT at which Jews unquestionably excel, it is their penchant for glorifying and glamorizing members of their own tribe. No Jew is ever raised to the saintly status of an Albert Einstein, a Jonas Salk or a Bernard Baruch by reason of merit alone, but always as the result of a persistent and sustained build-up by fellow Jews. And nowhere is the tribal claque more active than in Hollywood, where the Jewish-owned picture industry has hit upon the so-called "biographical" film as a vehicle for ballyhooing prominent Jews (mostly entertainers) into a sort of Kosher Valhalla. Space does not permit a complete listing of all the pseudo biographical movies based on the lives of Jewish characters, but within the past two or three years we have suffered through the "life stories" of Eddie Cantor (EDDIE CANTOR STORY), Ehrich Weiss (HOUDINI), Sol Hurok (TONIGHT WE SING), Sigmund Romberg (DEEP IN MY HEART), Benny Fields (THIS LOVE OF OURS), Al Jolson (JOLSON STORY)—to name just a few. And there are more on the way. MGM is currently showing the film, LOVE ME OR LEAVE ME, which purports to depict the life story of the Jewish songstress, Ruth Etting. Another film on the life story of Jewish orchestra leader Eddie Duchin, in which heiress Gloria Vanderbilt is slated to play a starring role, is scheduled by Jerry Wald's Columbia Studio Productions. And Walter Wanger has announced production on a picture based on the autobiography of the Jewish senator from Oregon, Richard Neuberger. Also, according to Jewish film columnist Leon Gutterman, pictures built on the life stories of Harry Richman, Sophie Tucker, Jack Benny, Milton Berle, George Jessel, Benny Goodman and other Jewish entertainers are also in the planning stage.



Neuberger . . . a movie hero?

Now you would think that in a situation like this, where virtually nine out of ten of the biographical films produced in Hollywood feature Jewish heroes, that even the Jews themselves would admit having the better end of it. But if we are to take the word of the Jewish Telegraph Agency's film columnist, Leon Gutterman, this isn't the case at all. Gutterman, in a recent article dealing with the subject of Jews whose life stories have been depicted on the screen, makes a point of the fact that Jews have fared well as entertainers, but until recently at least have met with **"bigotry and prejudice"** in the production and management end of the industry. **"For decades"**, whined Gutterman, **"the public has shown that it is no respecter of faiths in the matter of choosing its favorite entertainers . . . It is only in the off-stage phase of the entertainment world that people of the Jewish faith have encountered the obstacles of bigotry and prejudice—in production, management and theatre and studio ownership."**

Now let's nail that one down, because this particular statement is a perfect example of how the Jewish persecution complex works. Here is an authoritative Jewish film writer, whose column appears in dozens of Jewish papers from coast to coast, and he has the incredible gall to inform his reading audience that until quite recently Jews encountered **"bigotry and prejudice in production, management and theatre and studio ownership"**. This, mind you, in the face of the fact that every major studio in Hollywood is Jewish owned, with only two exceptions (RKO and 20th Century Fox), and notwithstanding the fact that all three of the country's major TV nets (NBC, CBS, ABC) are also Jewish owned. Overlooked also is the Jewish monopoly over the New York stage and legitimate theatre—a monopoly of 50 years standing, and so complete that even the Jewish Encyclopedia admits they are **"dominant"** in that field. And yet, despite all this, the Jewish Telegraph Agency's film columnist whines about **"bigotry and prejudice in production, management and theatre and studio ownership"** . . .

Maybe they ought to leave off from making their "biographical" films about Jewish actors long enough to make one on the theme of how Jews are "discriminated" against by the picture industry. They could make it an industry wide production, with Warner Bros., MGM Studios, United Artists, Paramount, Universal and Columbia Pictures participating. These companies are all Jewish owned and therefore presumably free of the type of "prejudice" and "bigotry" referred to by the Jewish Telegraph Agency's film columnist. . .

THE JEWISH MONOPOLY over the TV industry may soon be challenged, now that the Mutual radio network has bought the RKO interests of Howard Hughes in Hollywood. The Mutual system, largest radio network in the world—and Gentile owned—is said to be planning to move into the TV field in a big way. Up to now the "big three" of TV have been the CBS, NBC and ABC nets—all Jewish owned.

Report On The COLOR FRONT

✓ For years the Urban League and the NAACP have complained long and loudly over the refusal of swank Las Vegas hotels and vacation resorts to accept Negro guests. A couple of months ago all this was changed with the grand opening of the gambling center's gaudy "black and tan" hostel, the Moulin Rouge Hotel. With former boxing champion Joe Louis on hand in the lobby as official greeter, Nevada's first experiment in interracial living got under way with a bang. Unfortunately for its Jewish promoters, however, a heroin orgy in which a Negro saxophone player received a crushed skull marred the opening night somewhat . . . The rest of Nevada's resort hotels are still operating on a "for whites only" basis.

✓ Another Las Vegas hotel story involves a professional smart-aleck, Mickey Rooney, who invited a Negro "friend" to join him in the gaming room of the Club Riviera, where Rooney was appearing in a floor show. When the management ordered the Negro to leave, Rooney left in a huff, refused to open his show that night. He got a very nice write-up for his **"magnificent stand against jimcrow"** in the Communist PEOPLE'S WORLD.

high ranking Jewish accomplice, Israel Amter, who escaped trial on the same plea. Thirteen of the 20 Communist leaders indicted with Marian Bachrach were, however, convicted and sentenced to prison for plotting the overthrow of the U.S. government. But Marian Bachrach escaped scot free because of her "health".

LUCILLE MILLER

The contrast between the treatment received by the militant anti-Communist crusader, Lucille Miller, and the Jewish traitor, Marian Bachrach, is nothing less than startling. Lucille Miller, it will be recalled, is the "anti-Semitic" editor who was railroaded by a federal judge to an insane asylum several months ago without benefit of trial. Her story likewise had its beginning several years ago, when she aroused considerable enmity in leftist circles by exposing a "colony" of Communist traitors who had settled in and near the village of Randolph Center, Vermont. Among those she exposed were such well known conspirators as Nathan Witt, Lee Pressman, John Abt—and Marian Bachrach. . .

NOTE: We wish to correct an erroneous statement which appeared in our May issue to the effect that the Chicago Tribune last year printed an article demonstrating the UN Charter and the Soviet Constitution to be identical in wording in many parts. This was in error on two counts. The article referred to actually appeared on July 16, 1953 in the Chicago Tribune, and it compared the Soviet Constitution to the UN's so-called "Human Rights Covenant", rather than to the Charter itself.

Jews Masterminded Race Revolution

Public Kept In Dark About Silent Race Revolt

(Continued from Page One)

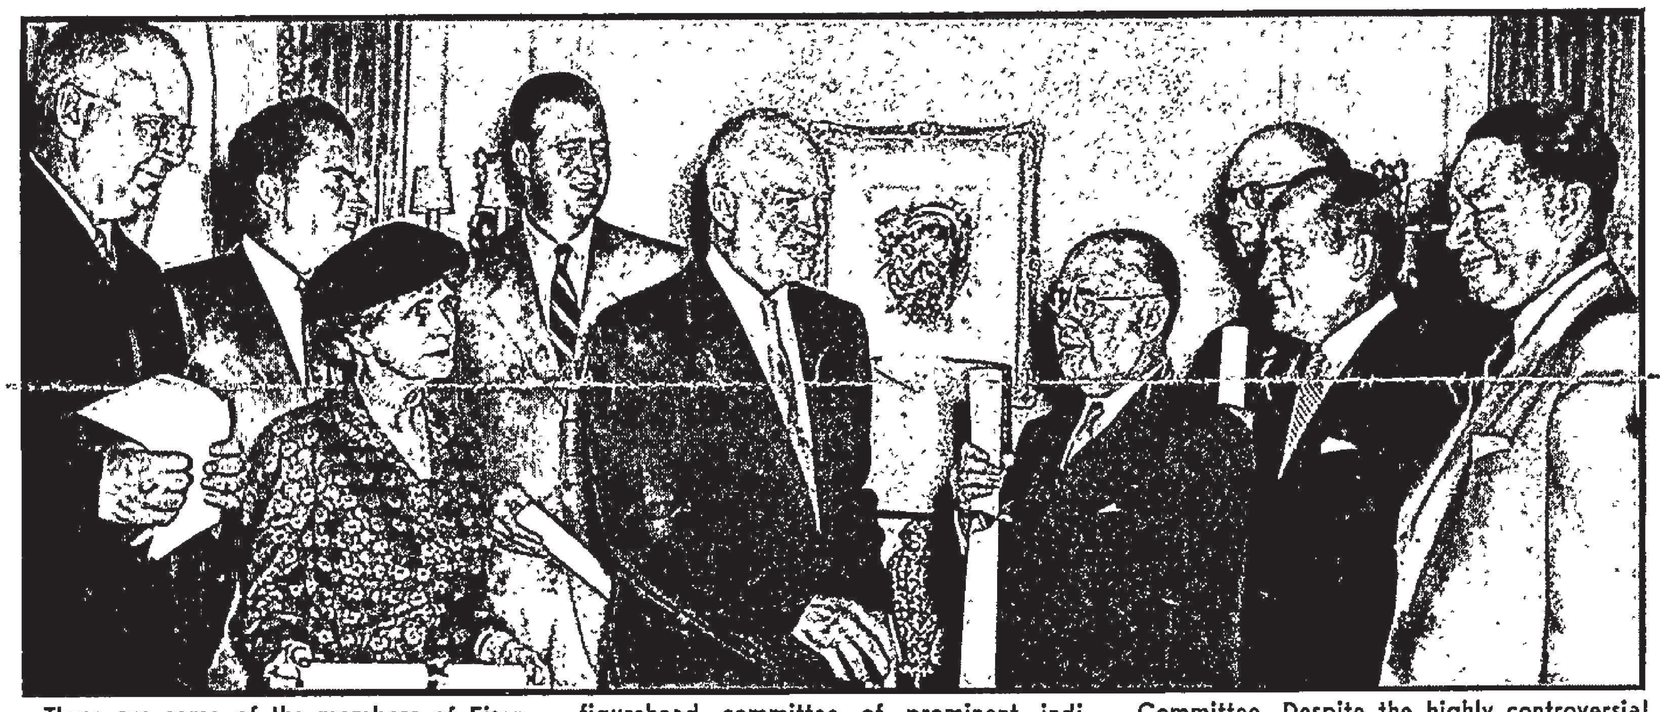
dent that his identity, as well as the nature of his work, remains unknown to the American people. For Seidenberg, like Anna Rosenberg before him, is a Jew with a mission, and until that mission is completed the alien forces which dictate public opinion in this country much prefer that he shall remain in the shadow of anonymity.

To fully appreciate the significance of Jacob Seidenberg's mission it should be explained first of all that the Committee which he runs is in reality a clandestine FEP Commission — its very existence kept a secret from the public. Furthermore, it is an FEPC created surreptitiously by Eisenhower himself, despite the wishes of Congress and contrary to the will of the American people. In the light of these facts it is not difficult to understand why the cabal behind Jacob Seidenberg is anxious to keep him under wraps for the time being. They know that if Congress and the American people are alerted to Seidenberg's sinister project at this stage of the operation, their whole program would be jeopardized.

For that reason the promoters of the "little FEPC" found it not only necessary to conceal their activities from the public, but were also obliged to circumvent Congress in setting up the Committee to begin with, since Congress has repeatedly refused to pass FEPC legislation in the past and would undoubtedly refuse to pass it now.

The "little FEP Committee" was actually created by Ike Eisenhower in August of 1953 at the behest of Jewish and Negro pressure groups, including the NAACP, the Anti-Defamation League of B'nai B'rith, the American Jewish Committee, and others. Its announced purpose was to put an end to "discriminatory" employment practices by firms doing business with the government —and their sub-contractors. The Committee itself originally consisted of 15 prominent individuals (see cut) with vice-president Nixon serving as chairman, and a Negro by the name of Ernest Wilkins holding down the vice chairmanship. The actual operation of the Committee, however, was entrusted to a Jew in the person of Jacob Seidenberg, who functions as its executive-director from an office in the Labor Department in Washington, D.C. To Seidenberg went the key job of putting the "little FEPC" into effect. . .

Three months after the "Committee on Government Contracts" was formed—on Dec. 2nd, 1954 to be exact—Seidenberg's office laid down the new rules which all government contractors and their sub-contractors must hereafter submit to. Not since the famed Nuremberg racial codes were formulated in Germany in the 30's had a more radical or far reaching set of racial regulations been imposed by a Western power—although it should be noted that the victims in this instance were white Christian Americans rather than Jews or Negroes. . .



These are some of the members of Eisenhower's "Committee on Government Contracts", created for the sole purpose of compelling business firms with government contracts to mongrelize their work forces. Actually, the group shown above is a figurehead committee of prominent individuals with little if any real say so as to the operation of the so-called "little FEPC". The real authority is vested in a Jew by the name of Jacob Seidenberg, who serves as executive-director of the Committee. Despite the highly controversial nature of the project, the public has been kept in ignorance regarding its activities by a curtain of censorship maintained by the nation's major news services, including the Associated Press (AP).

The most significant requirement among the Dec. 2nd regulations was the one specifying that all government contracts entered into after that date must contain a compulsory "non-discrimination" clause obligating each contractor not to "discriminate" against employees or prospective employees because of "race, religion, color or national origin". Specifically the contractor is prohibited from "discriminating" with respect to the following:

- ✓ Employment
- ✓ Promotion or demotion
- ✓ Transfer or layoff
- ✓ Recruitment advertising
- ✓ Apprenticeship or training

Stripped to basic terms this means an employer may hire and fire not according to his own needs and requirements, but according to the dictates of an alien-run government agency—an agency which has the power to put him out of business for daring to ask a prospective employee the place of his birth; or for failing to promote Negro or Jewish employees to the government's satisfaction; or for not hiring enough Negro employees to satisfy Mr. Seidenberg and Co.

And it should be emphasized that the burden of proof is always upon the employer in cases of alleged "discrimination", and the mere fact that he hires only white employees, or promotes only whites to executive positions, or transfers only white employees to a more desirable job, can of itself be taken as "proof" he is guilty of illegal discrimination. And the penalty is not a set fine but the loss of government contracts which, in certain cases at least, could run into millions of dollars.

Reduced to simple language this all adds up to the fact that virtually every major industrial firm in America (and its white employees) has been placed in a racial strait-jacket. No totalitarian regime and no dictator in history ever inflicted a greater tyranny upon an unsuspecting people. Silently, secretly, and virtually unnoticed, a Soviet-type Commissar has been appointed to the task of imposing Moscow's master plan for total mongrelization upon American industry and the American people. That is Mr. Seidenberg's real mission and that is why his name, as well as the nature of his work, has been kept from the American people. . .

SIGNIFICANCE: Since virtually all the racist agitation in this country is being carried on by, or financed by, organized Jewry, it is not surprising to find Jews in charge when coercive "anti-discrimination" and "Fair Employment" committees are actually established by government authority. Organized Jewry has long recognized the formation of these bodies as being only half the job; enforcement being the other half.

Thus, the pattern has been that whenever compulsory race-mixing machinery is once set up, a Jew is ultimately placed in charge. The "integration" program in the Armed Forces, the first and most significant step toward compulsory mass mongrelization, is a classic case in point. Anna Rosenberg, a little Budapest Jewess with a life-long record of pro-Marxist sympathies, was placed in command of the Defense Department's manpower section for the specific purpose of supervising that particular project. So well did she do her job that when she left the Defense Department in 1953, hardly a single all-white unit remained in the military establishment; they had been "integrated" from top to bottom. . .

CIVIL SERVICE

Still another example can be cited in the case of the Civil Service Commission's "Fair Employment" Committee, which Eisenhower established early this year. This Committee, whose function it is to eliminate "discrimination" in the Civil Service with regard to hiring, promotion, job opportunity, etc., consists of two white Gentiles (thoroughly brainwashed), two Negroes, and a Jewish chairman by the name of Max Abbell. . .

Thus does the picture emerge. When compulsory "integration" was begun in the military forces, we find a Jewess in the person of Anna Rosenberg in charge of the operation. When the Eisenhower administration hit upon the plan for using government contracts as a club for enforcing a compulsory FEPC upon American industry, the Jew, Jacob Seidenberg was put at the head of it. And when a similar program was

(Cont. Page 4 Col. 1)

ANNA ROSENBERG'S PENTAGON ASSIGNMENT

ANNA ROSENBERG
Her mission was to mongrelize the nation's Armed Forces.

Although her appointment was the subject of heated controversy, the real purpose behind Anna Rosenberg's choice as head of the Defense Department's manpower section several years ago was never clearly understood, even by her opponents. Anna's real mission was to "integrate" the Armed Forces; a program first begun by Harry Truman in 1948. Incredible as it sounds, she was able to carry this highly explosive project to completion without a word of public controversy being heard. She accomplished this with the connivance of the major wire services, who agreed to "sit" on the story for more than two years. Only after the Armed Forces were completely "integrated" was the public let in on the secret.

Jacob Seidenberg

Cont. from Page 3

inaugurated in the Civil Service, another Jew—Max Abbell—was installed as its chairman. And so it has gone. In each instance a Jew has headed these vital race-mixing projects, and each time a veritable blanket of censorship has covered their activities. That is why the sinister groups who are promoting the race revolution in our midst often refer to it in their own publications as the "silent revolution". . .

Jews Object To Church Ad

Cont. from Page 1

ish Congress has renewed its campaign against business establishments which dare to mention churches in their advertising, but it would appear that some change either in the Commission's make-up or attitude has led to the belief they will be more successful in prosecuting the charges this time. In any event, 35 New York hotel and resort owners must now answer to charges brought by the American Jewish Congress.

JEWISH HYPOCRISY

But while organized Jewry presses its fanatic campaign against what it calls "religious bias" and "discrimination" among Gentiles, Jews themselves do not practice the toleration they are forever preaching to others, but pursue the exact opposite course. Two excellent examples of this Jewish hypocrisy can be cited from the very same July 1st issue of the Brooklyn Jewish Examiner which, as noted above, carried the news item about the American Jewish Congress and its complaint against the 35 Gentile hotels.

The first example consists of a news story pertaining to the 43rd annual convention of the Young Israel Committee (YI) in Fallsburg, N.Y. The convention, which was attended by some 500 delegates, drafted a militant six-point program including, believe it or not, a recommendation that Christian missionaries should be outlawed in Israel! Describing Israel as a "hotbed" of missionary activities, the Young Israel delegates called upon the Israeli government to drive them from the country. And these are the Jews, mind you, who are even now prosecuting New York hotel owners for daring to advertise their places as being "near churches".

But an even more brazen example of Jewish hypocrisy can be cited in the case of the Jewish Examiner itself, which on one page of its July 1st issue carried the news item describing the American Jewish Congress' campaign against "discriminatory" Gentile resort advertising, and on its other pages carried more than 20 hotel advertisements featuring such phrases as **"strictly Kosher", "dietary laws observed", "wholesome Jewish-American food"**, and other similar advertisements (see cut, page 1) — all obviously designed to convey to the Jewish public that these resorts cater primarily (if not exclusively) to a Jewish clientele. And yet when Christian-owned resorts venture to advertise "churches nearby" they are brought into court by organized Jewry and charged with "discriminatory advertising".

And so here is an ideal example of how organized Jewry works. It explains better than anything else how a small and fanatical minority can impose its will upon an easy-going and tolerant majority by utilizing an hypocritical double standard of ethics—one standard for Jews (the chosen race), the other for Gentiles (the despised "goy"). It demonstrates perfectly the Jewish stratagem of preaching "tolerance" to others, while practicing intolerance themselves; of espousing "brotherhood" to the Christian, while teaching their own offspring to hate and distrust non-Jews; of combatting imaginary Gentile "prejudice", while engaging in the most flagrant prejudice on their own part. It explains clearly how Jews can propagandize Americans into disavowing "narrow nationalism", "racism", and "religious bigotry" —even while they themselves indulge in the most extreme forms of nationalism, racism and religious bigotry. . .

And until Americans come to the realization that this age-old device is being used against them, they have little hope of defending themselves against the type of activity described at the beginning of this article. Eventually Americans must learn to recognize the hue and cry over racial and religious "discrimination" for what it really is—as a sneak Jewish assault upon the American people and its institutions.

Keep that fact in mind the next time you see some Jewish organization sponsoring a so-called "anti-discrimination" law —or an F.E.P.C. measure.

Press Report

SPECIAL—Jewish propagandists are making much of the fact that no Jews were among the 21 turncoat GI's who stayed with the Communists at the end of the Korean War. The AMERICAN HEBREW in a recent front page article also emphasized the fact that . . . "all of them are native-born, and all but one had native-born parents". The trouble with that particular argument, however, is that the 21 turncoats were not Communists; they were deserters. For an accurate index of where the Jews stand on the Communist issue it is only necessary to check the racial identity of the Communist leaders convicted in this country under the Smith Act. A majority of those were Jews, although no newspaper dares to print the story. . .

SPECIAL—You may find this a little hard to stomach, but practically every time a piece of Communist literature goes into the U.S. mails (and millions of pieces go in monthly) you foot part of the postage bill. That's because most Communist propaganda is mailed out under either second or third class permits at a preferred postal rate—actually below cost. The practice is not limited to domestic Communist literature; even the Iron Curtain countries are taking out third class permits in order to cut down on their postage bills—at your expense. The legation of Communist Hungary, for example, mails out bales of Communist propaganda under permit number 9457, Washington, D.C. (Incidentally, Congress passed a bill more than five years ago requiring Communist propaganda to be labeled, "Dissiminated by a Communist Organization". But the Postal Department for some strange reason has never enforced it.)

WASHINGTON, D.C.—The Justice Department reports that for the year just past a total of 82 criminals were executed in the United States. Of these, 81 were convicted of rape and/or murder, and one for armed robbery. It is interesting to note that although Negroes constitute only 10% of the U.S. population, they accounted for more than half (43) of the above total. On a per capita basis that indicates the murder-rape rate is better than nine times as high among Negroes as whites. To state it another way, this nation's 16 million Negroes are committing more crimes in these categories than are the 135 million whites. . .

ATLANTA—A fight may be shaping up in Georgia between ex-governor Herman Talmadge and the 77 year old Walter George, for the latter's seat in the Senate. George has lost a lot of his conservative following in the state because of his vapid inter-nationalism within recent months, while Talmadge, who is 100% right on all the major issues (i.e. segregation, Bricker Amendment, UN ESCO, etc.) is at the peak of his popularity.

SPECIAL—The NAACP is reportedly having difficulty in meeting its $500,000 fund raising goal this year. The organization has virtually been driven underground in several Southern states, where in some instances NAACP representatives have been forced to pack up and leave.

Bachrach-Miller Case

Cont. from Page 2

Later, Lucille Miller's crusading zeal brought her into conflict with federal authorities over her opposition to the Selective Service Act, whose constitutionality she sought to test in court. Charged with obstructing the draft, she was brought into a federal court presided over by a bitter personal enemy in the person of Judge Ernest Gibson, notorious in Vermont for his left-wing sympathies. She never had a chance. For whereas the justice department and the federal courts had leaned over backward in their solicitude for the Communist agent, Marian Bachrach, they went to the opposite extreme to deny Lucille Miller a trial at all. After a kangaroo court proceeding, Judge Gibson declared her to be mentally incompetent, and therefore unfit to stand trial. Instead she was committed to a federally operated mad-house in Washington, D.C. for a "cure".

She would undoubtedly have remained there indefinitely had it not been for the storm of protest which followed. Fortunately for her, the justice department was compelled by public opinion to release her after an incarceration of 16 days, after which she was brought to trial on the charges for which she was originally indicted. Thus, Lucille Miller did finally get her jury trial and, theoretically at least, justice was done.

But the shameful contrast between the treatment received by Marian Bachrach and that meted out to Lucille Miller still remains. The fact is that Marian Bachrach, despite a life-long record of Communist treason, was treated with tender concern and deference, while federal authorities attempted to railroad the anti-Communist patriot, Lucille Miller, without so much as a trial. . .

That is why we shall follow the forthcoming trial of Marian Bachrach with more than casual interest, now that the government has at long last decided to bring her to justice. We are anxious to see if Communist traitors still get better treatment in the federal courts than do patriots. . .
